Postdoctoral work experience

- Since **Emmy Noether Group Leader.**
06/2024 Helmholtz Centre for Environmental Research - UFZ, Leipzig, Germany.
- Since **Deputy Head of the *Compound Environmental Risks* department.**
01/2024 Helmholtz Centre for Environmental Research - UFZ, Leipzig, Germany.
- 01/2021– **Postdoctoral Researcher.**
05/2024 Helmholtz Centre for Environmental Research - UFZ, Leipzig, Germany.
- 02/2020– **Postdoctoral Research Fellow.**
12/2020 Department of Meteorology, University of Reading, United Kingdom.
- 03/2019– **Postdoctoral Research Assistant.**
01/2020 Department of Meteorology, University of Reading, United Kingdom.
- 09/2018– **Postdoctoral Research Scientist.**
02/2019 Wegener Center for Climate and Global Change, University of Graz, Austria.

Education

- 11/2014– **PhD (Dr. rer. nat) in Physics (Climate Science).**
09/2018 2016–2018: Wegener Center for Climate and Global Change, University of Graz, Austria.
2014–2015: GEOMAR – Helmholtz Centre for Ocean Research Kiel, Germany.
Thesis: *Multivariate statistical modelling and analysis of compound events.* Supervisor: Prof. Douglas Maraun.
Pass with distinction (Max Grade).
- 2012–2014 **Master of Science in Physics (Astrophysics and Geophysics).**
University of Calabria, Cosenza, Italy.
Thesis: *Analysis of the magnetohydrodynamic turbulence anisotropy based on a novel definition of the mean magnetic field.* Supervisor: Prof. Vincenzo Carbone.
Cum laude, and honourable mention for the career (Max Grade).
- 2009–2012 **Bachelor's degree in Physics.**
University of Calabria, Cosenza, Italy.
Thesis: *Focus on the last glacial period: the dynamics of the Dansgaard–Oeschger events.* Supervisor: Prof. Vincenzo Carbone.
Cum laude, and honourable mention for the career (Max Grade).

Research stays

- 03/2019 **Laboratoire de Météorologie Dynamique (LMD)**, Paris, France. Short-term scientific mission, part of the DAMOCLES project.
- 06/2015–12/2015 **Laboratoire des Sciences du Climat et de l'Environnement**, Gif-sur-Yvette, France. Development of a statistical model for the CE:LLO project. Supervisor: Dr. Mathieu Vrac.
- 02/2015 **Norwegian Computing Center**, Oslo, Norway. Training in Pair-copula constructions. Supervisors: Dr. I. Hobaek-Haff and Prof. A. Frigessi.

PhD Thesis

- **Bevacqua, E.** (2018). "Multivariate statistical modelling and analysis of compound events". PhD thesis, University of Graz, Graz, Austria.

Grants and Awards

- 2024 Grant awarded. PI of the project "SEESAW: Societal and Environmental impacts of complex ExtremeS in a chAnging World", funded by the Helmholtz Centre for Environmental Research - UFZ. The project supports a cohort of four PhD students, with one directly supervised and another co-supervised by me (~ 600,000 €).

- 2023 Grant awarded. Main PI of the project "ADVICE: ADVancing the Investigation of Compound Events via large ensemble climate model simulations", from the *Emmy Noether Programme*, funded by the Deutsche Forschungsgemeinschaft (DFG) (~ 1,500,000 €). This DFG programme gives exceptionally qualified early career researchers the chance to qualify for the post of professor at a university by leading an independent junior research group for a period of 6 years.
- 2019 Grant awarded. For a *Short-term scientific mission* funded by the COST action DAMOCLES (CA17109) (~ 800 €).
- 2018 Grant awarded. Secondary proposer of the funded COST Action "DAMOCLES: UnDerstanding And Modeling cOmpound CLimate and weather EventS", CA17109 (~ 600,000 € for a period of 4 years).
- 2018 Winner of the *Outstanding Student Poster and PICO (OSPP) Award contest* of the EGU General Assembly 2018 (Fee waiver for the EGU General Assembly and a publication in an EGU journal).
- 2017 Winner of the *SWGEM-Hydro conference young scientist travel support*, awarded to only one student (~ 800 €).
- 2014 Winner of scholarship for merit *John R. Mott Scholarship Foundation* (~ 1,200 €).
- 2013 Grant awarded. Selected international graduate student for attending the TOSCA training School *Impact of Solar Variability on Climate* (~ 250 € and accomodation).
- 2012 Winner of scholarship for merit *John R. Mott Scholarship Foundation* (~ 1,200 €).
- 2006 Winner at the regional stages of the *Olympics of mathematics*. Participation by invitation in the national stage of the *Olympics of mathematics*, obtaining an *Honourable Mention*.

Teaching and Supervision

Teaching

- 09/2024 Lecturer at the "3rd Como Training School on Compound climate-related Events", Lake Como School of Advanced Studies, Como, Italy. Lecture: "Introduction to Compound weather and climate events" .
- 09/2022 Lecturer (Invited) at the "2nd Training School on Compound Events", Lake Como School of Advanced Studies, Italy. Lecture: "Introduction to Compound weather and climate events: definitions, fundamentals, and case studies" .
- 07/2022 Lecturer (Invited) at the "Training School on Dynamical Modelling of Compound Events", Budapest, Hungary. Lecture: "Compound weather and climate events: definitions, fundamentals, and case studies".
- 06/2022 Lecturer at the training School "Artificial Intelligence for Detection and Attribution of Climate Extremes" (smr 3717), ICTP Trieste, Italy. Lecture: "Compound weather and climate extreme events".
- 02/2020 Contribution to the course "MTMG05: Professional Skills module" of the Master in Meteorology at the University of Reading. Supervision and organisation of the group project "Present and future changes in tropical cyclone translation speeds", undertaken by five master students (Chun Hay Brian Lo, Chun Hang Tony Chau, Sophie Harbord, Emma Freda Patmore, and Ho Lun Curtis Wong). .

- 10/2019 Lecturer (Invited) at the "Training School on Statistical Modelling of Compound Events", Como, Italy. Lecture: "Physical processes driving compound flooding and its future changes".
- Supervision**
- 09/2024- Present Supervision of the PhD student Emilie Gauthier (plan, 3 years). Topic: Wildfire danger in Europe in a changing climate.
- 01/2024- Present Supervision of the PostDoc Ji Li (plan, 2 years). Topic: Changes in soil moisture droughts.
- 11/2023- 11/2027 Supervision of the PhD student Yu Meng (plan, 4 years). Topic: Compounding effects behind renewable energy dynamics.
- 10/2022- 03/2024 Supervision of the PhD student Sifang Feng during a research stay (18 months). Topic: Impact of spatially compounding events on global crop yield.
- 06-08/2022 Supervision of the PhD student Luis Gimeno-Sotelo during a research stay (3 months). Topic: Compound drivers of changes in daily precipitation extremes.
- 07/2022- Present Supervision and organisation of the group project "The influence of modes of climate variability and their interplay on compound events", undertaken by a group of seven PhD students (Katharina Kuepfer, Ahmet Yavuzd, Bastien Francois, Khalil Teber, Louise Brett, Richard Leeding, and Luis Gimeno-Sotelo) at the "Training School on Dynamical Modelling of Compound Events" (together with Prof. Daniela Domeisen). The project is continuing after the training school.
- 09/2019- 06/2021 Supervision and organisation of the group project "Model evaluation of bivariate relationships with copulas", undertaken by a group of six among PhD students and early Postdocs (Roberto Villalobos-Herrera, Andreia Ribeiro, Graeme Auld, Laura Crocetti, Bilyana Mircheva, and Minh Ha11) at the "Training School on Statistical Modelling of Compound Events" (together with Prof. Carlo De Michele). The project continued after the training school up to the publication of a paper.

Management roles and Memberships

- 2021-2023 Leader of the Working Group 4 ("New statistical approaches for model development and evaluation") of the COST action DAMOCLES (CA17109).
- 2021-Present Affiliate member of the WCRP Safe Landing Climates Lighthouse Activity (scientific theme: Understanding High-risk Events theme).
- 2019-2023 Management Committee (MC) member for the United Kingdom in the COST action DAMOCLES.
- 2019-2020 Manager, Group Workspace "storycc" on the JASMIN computing infrastructure, United Kingdom.
- 2018-2019 Management Committee (MC) member substitute for Austria in the COST action DAMOCLES.
- 2013-2015 Student representative, Physics Department, University of Calabria, Italy.

Organisation of Scientific Events

Organisation of Workshops, Conference sessions, and training schools

- 04/2025 Main convener of the session "Compound weather and climate events", European Geosciences Union 2024 General Assembly, Vienna, Austria.
- 09/2024 Co-Organiser of the "3rd Como Training School on Compound climate-related Events", Lake Como School of Advanced Studies, Como, Italy, 24/09/2024-04/10/2024.
- 04/2024 Main convener of the session "Compound weather and climate events", European Geosciences Union 2024 General Assembly, Vienna, Austria.
- 11/2023 Co-organiser, workshop "Compound events' research: next steps", Karlsruhe Institute of Technology, Karlsruhe, Germany; November 14-16th, 2023.
- 02/2023 Co-organiser, workshop "Compound event attribution" funded by the COST action DAMOCLES, Helmholtz Centre for Environmental Research - UFZ, Leipzig, Germany; February 24-25th, 2023.
- 06/2022 Co-Director of the training school "Artificial Intelligence for Detection and Attribution of Climate Extremes | (smr 3717)", ICTP Trieste, Italy, 20/06/2022-01/07/2022.
- 04/2023 Co-convener of the session "Compound weather and climate events" European Geosciences Union 2023 General Assembly, Vienna, Austria.
- 05/2022 Main convener of the session "Compound weather and climate events" (NH10.2/AS4.10/CL5.3.8/HS13.7), European Geosciences Union 2022 General Assembly, Vienna, Austria.
- 02/2022 Convener of the session "Boosting (and/or rare event sampling) of compound events and global storylines" within a virtual workshop organised by the international project XAIDA.
- 10/2021 Organiser, workshop "Large ensemble simulations for compound event research" funded by the COST action DAMOCLES, Paris, France, October 6-8 2021.
- 11/2020 Organiser, workshop "Bottom-up identification of key elements of compound events" funded by the COST action DAMOCLES, Tirana, Albania (*held virtually due to Covid*), November 3-6 2020.
- 10/2020 Co-organiser, workshop "Using and reconciling statistical and process-based approaches for modelling compound events" funded by the COST action DAMOCLES, Malta (*held virtually due to Covid*), October 21st, 22nd, and 27th, 2020.

Organisation of Seminars

- 2016-2019 Organiser, seminar series ("Challenges in Regional Climate Research") for the Reloclim group at the Wegener Center for Climate and Global Change, Austria.
- 2016-12-15 Moderator, T4Science seminar "How to ask good scientific questions? A panel discussion" at the University of Graz, Austria.
- 2012-2014 Co-organiser, seminar series for the CuboRisonante group at the Physics Department of the University of Calabria, Italy.

Computer and language skills

Computer

Programming languages: R, Bash; previous experience with IDL, Fortran, C, and C++.

Geophysical models: experience with the astronomical tide model FES, the regional climate model COSMO-CLM, and the mesoscale Hydrologic Model mHM.

Languages

Italian (mother tongue), English (fluent), German (intermediate), French (basic).

Outreach and appearances in media

Interviews and Appearances in media

- 04/2022 Interviewed by the Podcast *Co.scienza*, Episode "Eventi Climatici. Composti e Complessi" (available on Spotify, Deezer, Castbox etc.).
- 03/2020 Interviewed by *Sciences et Avenir*, about the anomalous stormy season in France and its potential association with climate change.
- 03/2019 Interviewed by the *BBC*, about future changes in compound flooding.
- 03/2019 Interviewed by the *New Scientist*, about future changes in compound flooding.
- 2018-2019 I created artistic visualisations of global warming that were used by several media for informing on ongoing climate change, for instance by the Eguraldia TV show (EiTB TV, 11/2018), by calabrianews24.it and MeteoCalabria.net for online articles (03/2019 and 12/2018), and by the movement *Historians for future* as their current logo; one visualisation has been featured on Wikipedia.

Blog posts

- 12/2019 "Climate change increases the "perfect storm" coastal flood potential". Meteorology blog of the University of Reading [Link].
- 04/2019 "Towards a categorisation of statistical methods to study compound events". Blog of the COST action DAMOCLES.
- 04/2019 "Session report: Understanding and modelling compound climate and weather events and their impacts". Blog of the COST action DAMOCLES.
- 11/2018 "Climate change visualizations". Blog on personal website [Link].
- 09/2017 "Recent major compound flooding in Texas". Blog on personal website.

Other outreach activities

- 11/2022 Contribution to "A Scientist Just Like Me", a project that introduces children to a diverse range of scientists and people who work in science-related jobs. [Link].
- 02/2022 Contribution to R toolbox "cmsafvis" with programming code for creating visualisations of climate change, i.e. the Circular warming stripes. [Link].

Invited oral presentations (selected)

- 11/2023 **Bevacqua, E.**, "Compound weather and climate extreme events: a worst-case perspective", Workshop: Exploring Unprecedented Extremes, Montreal, Montreal, Canada (Talk given online), **(Invited)**.
- 10/2022 **Bevacqua, E.**, "A compound event perspective on extreme weather events", 4th International Atmospheric Rivers Conference (session on Compound events), Santiago, Chile, https://cw3e.ucsd.edu/iarc2022_keynote_speakers (Talk given online), **(Invited Keynote)**.
- 05/2022 **Bevacqua, E.**, "Studying diverse types of compound weather and climate events". Webinar organised by the Institute of Oceanology Chinese Academy of Sciences and Chinese Academy of Meteorological Sciences **(Invited)**.
- 03/2022 **Bevacqua, E.**, "Advancing our understanding of summertime and wintertime compound events via SMILEs". Webinar series of the SMILE (Single Model Initial-condition Large Ensemble) community (<https://large-ensemble.github.io>) **(Invited)**.
- 02/2022 **Bevacqua, E.**, "Studying diverse types of compound weather and climate events". RSC4Earth Methods Seminar, Remote Sensing Centre for Earth System Research, Leipzig, Germany (Talk given online) **(Invited)**.
- 02/2022 **Bevacqua, E.**, "Guidelines for studying diverse types of compound weather and climate events". Multi-risk and flood seminar, Institute for Environmental Studies (IVM), Vrije Universiteit Amsterdam, Netherlands (Talk given online) **(Invited)**.
- 09/2021 **Bevacqua, E.**, "A compound event perspective on extreme weather events". Next Generation Challenges in Energy Climate modelling 2021 (NextGenEC21), Online workshop **(Invited)**.
- 02/2021 **Bevacqua, E.**, "Projections of changes in meteorological events that drive compound coastal flooding". Virtual Workshop on Compound Flooding organised by the American Society of Civil Engineers **(Invited)**.
- 11/2020 **Bevacqua, E.**, "Projections of the compound flooding potential from coastal processes and cyclone clusters". Colloquium in Climatology, Climate Impact and Remote Sensing. Institute of Geography, University of Bern (Talk given online) **(Invited)**.
- 10/2020 **Bevacqua, E.**, "More meteorological events that drive compound coastal flooding are projected under climate change at most locations worldwide". Risk-KAN Webinars, Knowledge-Action Network on Emergent Risks and Extreme Events, a joint initiative of the Future Earth, IRDR, WCRP and WWRP programs **(Invited)**.
- 09/2020 **Bevacqua, E.**, "Global projections of meteorological drivers of compound coastal flooding". Workshop on "Mid-Latitude Compound Climate Extremes", Uppsala University, Sweden (*held virtually due to Covid*) **(Invited)**.
